

A Level Subject and Stream Recommendations: 01

Based on your test responses, we recommend you consider pursuing the Commerce stream for your Advanced Levels. Here are the subjects that you can choose in this stream:

1. **Accounting:** Accounting is an essential subject for commerce students, as it provides a foundation for understanding financial transactions, budgeting, and taxation. It is also a useful subject for students who are interested in pursuing a career in finance or accounting.
2. **Business Studies:** Business Studies is another popular subject among commerce students, as it provides a broad overview of the business world, including topics such as marketing, management, and operations. This subject is particularly useful for students who are interested in entrepreneurship or management.
3. **Economics:** Economics is a fundamental subject for commerce students, as it provides an understanding of how markets and economies work. It is also a useful subject for students who are interested in pursuing a career in finance, policy-making, or research.
4. **Mathematics:** Mathematics is an important subject for commerce students, as it provides a foundation for understanding financial models, statistics, and data analysis. It is also a useful subject for students who are interested in pursuing a career in finance or research.
5. **Statistics:** Statistics is a highly useful subject for commerce students, as it provides tools for analyzing data and making informed decisions. It is particularly useful for students who are interested in pursuing a career in finance or research.
6. **Logic:** Logic is a branch of philosophy and mathematics that deals with reasoning and argumentation. It involves analyzing and evaluating arguments to determine whether they are valid or invalid and to identify errors and inconsistencies in reasoning.
7. **ICT:** ICT stands for Information and Communication Technology. It is a subject that covers a broad range of technologies used for communication, information processing, and data management. This includes computers, software, networks, and the Internet. The subject also covers the social, ethical, and economic implications of these technologies.

You may choose any of the 3 subjects from the provided list. Please note that if your school permits it, you may also choose other subjects from the Arts stream. Additionally, it is mandatory that you also sit for the General English and Common General tests.
